Patent=705771

Patent=12731799

Format1=paper

Searchtopic=The invention is an integrated system for providing help instructions for performing a task (e.g., step-by-step guide on how to install a sink), an estimate module for estimating the cost of materials required to perform the task on one's own (e.g., how much would it cost me to buy the materials necessary to install a sink myself), and a purchasing module that allows a user to purchase the necessary materials (e.g., I can order the sink, pipes, and tools needed to install the sink). If you can find these limitations (in any field of endeavor), please also try to find a comparison module that lets the user compare the cost to perform the task on one's own (including materials and a value of one's time) to the cost to perform the task using a contractor's services (e.g., how much would a contractor charge me for the labor and materials required to install the sink). Preferably, these steps are carried out in an online/Internet environment; however, the disclosure of these steps in any environment would be helpful.

**Component distribution management system for motor vehicle *repair*,
prints operation *instructions* of *ordered* *component* in voucher for
transmission to purchasing person, when order corresponding to the
component is received**

Abstract (Basic):

... For managing distribution of *ordered* *components* and spare
parts related to motor vehicle to manufacturing plant, repair shop and
companies through...

...As the operation instructions are delivered along with the *ordered*
components, the component distribution management efficiency is
improved...

TEACHING MATERIAL *PREPARATION* SUPPORT METHOD, *TEACHING* MATERIAL USE
MANAGING METHOD, SERVER, AND PROGRAM

PUB. NO.: 2003-263097 [JP 2003263097 A]
PUBLISHED: September 19, 2003 (20030919)
INVENTOR(s): OZOE GAWA TAKAHIRO
APPLICANT(s): FUJITSU LTD
APPL. NO.: 2002-067519 [JP 200267519]
FILED: March 12, 2002 (20020312)

TEACHING MATERIAL *PREPARATION* SUPPORT METHOD, *TEACHING* MATERIAL USE
MANAGING METHOD, SERVER, AND PROGRAM

ABSTRACT

PROBLEM TO BE SOLVED: To enable a user to easily understand/evaluate and to
easily *prepare*/edit the contents of a *teaching* material, and to enable
a teaching material provider to accurately charge.

SOLUTION: A server 1...

... material selecting route in the past and evaluation information

(recommendation degree) of each material. The *purchase* *material* is transferred to a customer area 1a, where preparation/editing of each user's original...

Title: Fighting the one-to-one information battle

Author: Mason, Dennis E.

Source: Printing News v 152 n 10 Mar 8 2004. p 8-9

Publication Year: 2004

ISSN: 1046-8595

Language: English

Abstract: In response to the trend toward one-to-one marketing, printers are beginning to *acquire* *equipment* capable of personalization and customizations well beyond simple addressing and salutations. However, putting a variable...

...strategy for feeding it information is much likely trying to use infantry effectively without first *building* bridges and roads. To *help* users their way through the one-to-one minefield, some personalization software offerings are already...

Title: Improved technology for determining maintenance requirements of motor and generator windings

Author: Stone, G.C.; Kapler, J.; Roache, C.

Corporate Source: Iris Power Engineering, Mississauga, Ont, Can

Conference Title: Proceedings of the 81st Annual Meeting of Technical Section Canadian Pulp and Paper Association. Part A

Conference Location: Montreal, Que, Can Conference Date: 19950131-19950203

E.I. Conference No.: 42768

Source: Annual Meeting - Technical Section, Canadian Pulp and Paper Association, Preprints 1995. Canadian Pulp & Paper Assoc, Montreal, Que, Can. p A31-A34

Publication Year: 1995

CODEN: PMCADQ ISSN: 0316-6732

Language: English

...Abstract: due to motor and generator failures, permit better maintenance planning, and reduce life-cycle maintenance *costs*, tools are required to assist maintenance *personnel* in *assessing* the health of motor and generator windings. This paper presents two such tools which have recently been developed. The first tool is an *on*-line* partial discharge test for motor and generator stator windings rated 4000 V and above performed...

...making key decisions. In a related development an expert system software has been created to *help* non-specialist *maintenance* personnel plan tests and inspections of rotor and stator windings in large motors and generators...

**Temporary Help Revenues Show Big Boost; Industry Training More Than Doubled
in Two Years**

DATE: September 3, 1998 12:28 EDT WORD COUNT: 395

...the \$335 million spent in 1995.

Ninety percent of staffing companies provided training at no *cost* to
their temporary *employees*, according to the *survey*. In 1997, an
estimated 4.8 million temporary *workers* received specific training in a
wide variety of career-*building* skills.

While much of the *instruction* occurred in training centers,
classrooms or personal tutorials, the majority of companies also supplied
computer...

... language, resume and cover letter writing, interviewing skills,
telephone etiquette, dressing for success, stress management, *Internet*
applications, bookkeeping, collections, sales and customer service.

"When staffing companies invest in upgrading the skills...

The empowerment of service workers: what, why, how, and when.

Bowen, David E.; Lawler, Edward E., III
Sloan Management Review, v33, n3, p31(9)
Spring, 1992

ISSN: 0019-848X LANGUAGE: English RECORD TYPE: Fulltext; Abstract
WORD COUNT: 6130 LINE COUNT: 00523

... When

Why to Empower: The Benefits

What gains are possible from empowering service employees? * Quicker
On-*Line* Responses to Customer Needs during Service Delivery. Check-in
time at the hotel begins at...

...have all the necessary resources at their command to provide customers
with they need. * Quicker *On*-*Line* Responses to Dissatisfied Customers
during Service Recovery. Customer service involves both delivering the
service, such...Express selects customer agents and couriers on the basis
of well-researched profiles of successful *performers* in those *jobs*.

Training is an even greater *cost*. The production-line approach
trains *workers* easily and puts them right to work. In *contrast*, new
hires at SAS are formally assigned a mentor to help them learn the ropes;
Nordstrom department...

Handwerker Construction

Damage Assessment Experts | Appraisal | Asbestos Abatement | Estimating

Xactimatetm I - Class Description & Information

Course Requirements

- Student is knowledgeable in basic construction practices and terminology.
- Each student should have basic computer skills and understand programs such as Microsofttm Word, Excel & Project or the like. It is not essential but highly recommended.

Course Outline

■ Developing an ESTIMATE on Xactimatetm

- Basic Estimate Framework
- Entering Data into each room
 - i. Macros
 - ii. Special Conditions
 - iii. General Conditions
- Items not included in Xactimatetm price list
 - i. Equipment, Labor, Material
 - ii. General Conditions
 - iii. Creating New Price List Info
- Modifying prices in relation to Equipment and Material availability

Xactimatetm by far is one of the most useful tools available to the contractor or estimator. If you have already started using the program you are aware of all the important tools it has to offer. By utilizing the MACRO functions and other time saving tools on Xactimatetm

estimating is easier and faster than traditional methods. We assume you are well versed in the Xactimatetm environment and we will not be going over what you have already learned about using the program. However, there are a few items to consider regarding the use of Xactimatetm and how it may be used even better. We will train you how to use the Xactimatetm estimating program and how to modify some of its functions to create a more thorough estimate.

Handwerker Construction

Damage Assessment Experts | Appraisal | Asbestos Abatement | Estimating

Xactimatetm II - Class Description & Information

Course Requirements

- Student is knowledgeable in basic construction practices and terminology.
- Each student should have basic computer skills and understand programs such as Microsofttm Word, Excel & Project or the like. It is not essential but highly recommended.
- Students should have a working knowledge of Xactimatetm

Course Outline

■ Understanding The Policy - Practical Applications

■ Typical insurance claim terms will be addressed:

- ACV - Actual Cash Value
- RCV - Replacement Cost Value
- Depreciation
- ALE - Additional Living Expense
- Coverage,s A, B, and C - Personal Property
- Line of Sight
- Like Kind & Quality
- Bringing the loss back to the condition prior to the claim.
- Fair Rental Value
- SDI- Laws and practical notes
- R&R, D&R, etc.

An experienced estimator and/or Scoper may or may not find it necessary to understand

insurance policies and the many terms found in them. However to be an effective claims negotiator one must comprehend the basics of a typical policy and its terms. The objective here is to understand what the policy will cover in a loss and the amount of coverage allowed. It will make a big difference in settling the claim and development of your estimate.

■ Scope of Loss / Estimate Preparation Skills

■ What is a Scope of Loss.....

- Measuring techniques
- Inspection techniques
- Photographing
- Entering data on SCOPE sheet.
- How to take proper notes while you scope
- How to make your sketches and drawings clear for all to see
- Acknowledging site conditions
- How to begin a scope of loss inspection
- Tools you will need when you do your SCOPE
- And much, much more.....

The keys to proper scope procedures will be thoroughly addressed in our classes. We are training our students now so they are prepared to conduct a proper scope in the future. Some of the following issues will be detailed:

■ What is an ESTIMATE from a Scope of Loss.....

- Consider site conditions
- Weather
- Materials
- Special labor, equipment or construction techniques.

An ESTIMATE is a cost of repairs of the SCOPE of loss. The estimate is different from the scope because it has the cost attached to the repair procedure. For example, if a wall has a crack the estimate for the repair is not only to fix the crack but to apply the wall covering over it. In other words you may have scoped the damage (crack in the wall) but the estimate is to fix the crack and apply the wallcovering to properly repair it.

■ Repair Procedures - Practical Applications & Procedures

- The proper repair may not be the most economical repair.
- Demolition-Rebuild v. Repair
- Understanding policy limits and how it can effect your claim
- Interpreting Structural / Soils Engineering reports

Examples and Miscellaneous Information

Items Xactimatetm May Not Include:

We will teach you how you can create your own price list item and use it in the estimate. Be sure when you scope you make note of all items even though you are certain they are not in the Xactimatetm program. Actually, Xactimatetm encourages their users to create prices and occasionally will update there own price lists with some of the data they receive from users. This is beneficial to all concerned and eventually some insurance companies will begin to use these prices in their own estimating thereby making negotiations more amicable.

■ Other Insights And Lectures

■ Estimate Preparation

- Presentation Package
- Negotiation Skills
- Going to Appraisal
- Writing letters and keeping records
- Hiring an Appraiser, Umpire etc.

■ USING Xactimatetm Format In Other Applications

- Creating Excel Spreadsheet
- Creating Microsoft Project Worksheet
- Utilizing the Time and Materials reports
- Creating useful charts and spreadsheets from Xactimatetm data

The above are just a sampling of the techniques and topics we cover in our classes. If you feel you or your company will benefit from this educational experience please follow the links to

Registration.

Online Collaboration

Is your Insurance Agent's office right around the corner, so, you probably don't mind stopping in to talk about policy. Most of us, however, have to travel a bit to get to the agent's office. And it's not always convenient.

SmartHomesite allows you and your agent to view the information at the same time - online! How big is your room and how much coverage do you need for jewelry? We can answer insurance questions from your home, where we are most likely to have the answers. You can even view your data, including the Sketched floor plan of your home as your agent enters it in to your site, making sure it's accurate.

And with SmartHomesite's built-in collaboration tools, you can share your data with whomever you wish. Get a work estimate over the phone while both parties view the floor plan online. The best part is that you control the access to your information. Set up "guest" access to your data for a day or a week. You determine if they can view only, delete information, and can terminate their access at any time.

Home Valuations

Got 2 minutes? In less than two minutes, SmartHom Home Valuation service, using the area-specific price used most often for settling insurance claims, can value reconstruction price of your home - to 90% accuracy home valuation, including the Sketched floor plan of home, produces a valuation that is 99% accurate!

Are you carrying enough insurance to cover your home? How do you know? The time to find out isn't just after house burned to the ground. SmartHomesite allows you to quickly and accurately value the reconstruction costs of your home, ensuring that you will know how much coverage you need.

You can even re-value your home, using up-to-date information whenever you would like.

Help

Need help? We provide all the standard text help you might expect, and a whole lot more.

Introducing "PoPS", our resident Professor of Property Services. We have created a customized guide to help you fully utilize your SmartHomesite account. PoPS is an animated character that will show you what to do and how. He even talks, dances, sings, calls you by name and walks you through setting up your floor plan!

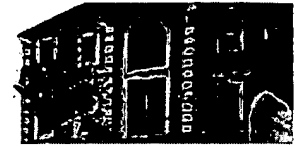

Don't want to have PoPs talk to you? Don't worry. You can set up your helps to get only the level of help you desire. You can even view help animations with text-only descriptions.

Learning Objects

Learning Objects™ teach you how to do-it-yourself, how you troubleshoot and fix problems, explain recalls, how to get the most from your home through proper maintenance, calculate material quantities for you, and even tell you when you should call in a professional. Full-motion animation and sound make Learning Objects™ a great way to see exactly what you need to do.

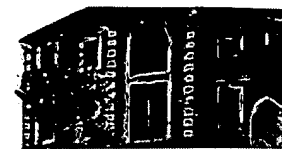

You will want to browse through SmartHomesite's extensive library of how-to Learning Objects™ before starting your next home improvement project.

Alerts and Recall Notices

Is your furnace about to blow up? When a manufacturer discovers that a product you own doesn't work quite the way they thought it would, you need to know. But manufacturers find it difficult if not impossible to track down everyone who may have purchased a certain item—often months or years prior to the recall notice.

Many people use recalled products every day, unaware they are dangerous and need repair. There are many serious recall notices today that could save you from a fire or other serious incident if you knew about it. SmartHomesite automatically monitors recall notifications and safety alerts and will let you know should an item in your home pose a potential problem for you.

Reminders

Everyone needs a reminder once in a while. SmartH lets you set up variety of reminders that help you remember the tasks around the home that help keep your family's home well-maintained, and your warranties in force. And SmartHomesite only sends you the reminders that you want.

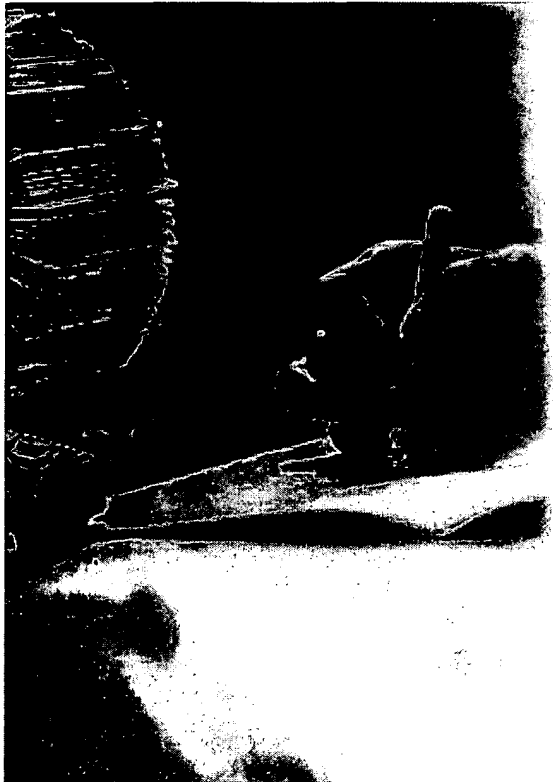

We are all comforted when a product we purchase comes with an extended warranty. But did you know that many warranties require some maintenance on your part to keep them valid and in force? SmartHomesite reminders help you remember your furnace filter needs replacement, or your carpet warranty required you to get it cleaned at least once a year (and it's been 11 months already).

Contacts

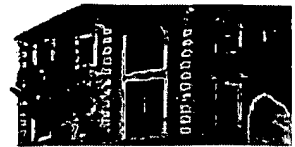

Your contacts list helps you keep track of all the people who work on your home. You can always have phone numbers and other contact information should you ever need to contact someone again. So if you want to do additional work someday or have a warranty claim, a contact information is in one convenient place.

And because SmartHomesite is a secure, online service you can get to this information from anywhere that has an internet connection.

Warranty Information

Most homeowners have thousands of dollars worth of warranties in their home, and yet have no idea how to use them or if they are still in force or what to do should they need to claim.

Almost all warranties require that certain conditions be met for the warranty to remain in force. Did you know that carpet warranties require that you have them professionally cleaned in order for them to remain in force?

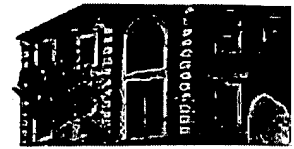

SmartHomesite will help you not only keep track of all the warranties you have, but also help you keep them in force by helping you set up maintenance reminders. And SmartHomesite even has an extensive Learning Objectives library to train you how to perform these home maintenance tasks.

Inventory Items

A complete listing of your home's furnishings makes it easy to file insurance claims or make a warranty claim. It also allows you to receive notification should you have an issue with your home that needs to be fixed or could be potentially dangerous to your safety.

A list of inventory items allows you to manage the items in your home, from storing the contact information on the item to how much it cost and if you bought the extended warranty. And should you ever experience loss, theft, or damage to your items, you have a complete detailed list in a safe location.

Sketch Online

With a floor plan or Sketch™ of your home, you automatically have all the measurements and quantities you need for just about any home project. If you decide to paint the bedroom, you can quickly check your online floor plan to see how much paint you'll need. If you're wondering if a couch will fit in the living-room alcove, you can quickly check to see - from the furniture store. Or you can dream about a new sunroom by adding it to the Sketch™ and viewing the results in 3-D.

You'll find Sketch™ easy to use and to learn. And unlike conventional blue prints or a hand drawing, Sketcher plans are always drawn to scale and dimensions are recalculated every time you make a change. And, as an added bonus, you can view the Sketch™ in 3-D, spin around, and do a virtual walk-through of the floor plan. A great tool for getting a feel for the space - before you
